MI ViCAP Database: Attempted Abduction/Abduction Initiative

The Prevention Services Section is in the process of collecting information on attempted abductions and actual abductions and placing it in a database called the Michigan Violent Crimes Apprehension Program (MI ViCAP). The MI ViCAP database will provide field investigators with valuable information in the investigation of violent crimes. It will also assist in identifying potential serial or repeat offenders before crimes escalate in intensity and/or violence. For more information on this initiative, please contact [Sgt. Greg Jones](#) at (517) 333-4017.

Michigan Youth Leadership Academy (MYLA)

The MYLA is a one-week residential training program, hosted at the Michigan State Police Training Academy for males between the ages of 14 and 16. This program is a combined effort with the involvement of the Michigan State Police and local law enforcement authorities in training and mentoring the young men chosen to attend. The MYLA is supported by donations from local entities with an interest in the youth of Michigan which allows the students to attend at no cost to themselves or their families. The areas of instruction include conflict resolution, anger management, community leadership responsibility, team building, military courtesy, health awareness, and physical fitness.

The mission of the MYLA is to encourage leadership by promoting responsibility, respect, and trust through partnership building with local and state law enforcement agencies.

For further information on the MYLA, please contact [Sgt. Bennie Bowers](#) at (517) 336-6128.
